

Property Committee Report for May 2008

May 10 we had a work day from 8 AM until 12 noon. The members helped put 7 yards of mulch around trees and bushes.

We contacted Calvin Stewart for an estimate for the replacement of rotten wood around the steeple. He called back and said there is a lot of dry rot around many of our outside church windows. I ask him to do an estimate of the cost to fix the windows. To date I do not have is estimates.

Carpet will be installed early June. Where is a question of who will move the furniture as the carpet layer installs the carpet. Harms carpet is willing to do the moving of the furniture for an additional fee.

Paul Harmon a painter recommended by Calvin Stewart will be giving us an estimate to prep and paint the wood following the dry rot repair. He will also give us an estimate of the cost to paint the church. I may have him give us a labor estimate and we provide the paint. Then we could do a fund raiser by selling gallons of paint.

Jim Dollar has some other projects so we may have another work day in June.

Bill Davis
Chair of Property Committee
